Credit Union Governance

The Credit Union Board of Directors is a group of credit union members whose main focus is setting the strategic direction for the Credit Union and ensuring the organization remains member focused. Management reports financial results and other relevant information to the Board on a monthly basis. Individual member information is not part of these reports and all credit decisions are made by a committee of staff members. Board members are elected at the annual meeting for a three-year term and can choose to let their name stand for additional terms if they wish. This group of members is well trained and committed to maintaining the wellbeing and success of your local Credit Union.
