LCU'S CYBERSECURITY EVENT

LCU's Mobile Device Privacy & Security event was a resounding success. Barry Bundus of National Consulting Limited, a Credit Union owned company, conducted three presentations on April 30. LCU's efforts educated 162 individuals on cybersecurity, fraud recognition, and mobile device security settings adjustment.

Barry's presentations were dynamic and engaging, encouraging hands-on participation from attendees. Despite the wealth of information shared, feedback attendees found the sessions highly beneficial. Barry provided handouts for both iPhone and Android users, allowing people to further review and make adjustments at home.

Additionally, Ryley Magnus presented the features LCU offers such as Alerts, Auto Deposit, and Password Recovery.
